

Negative Doubles

and other ones too!

A one day seminar with Tom Jahnke

“The double was originally introduced to increase the penalty for overbidding. Players soon realized that the double is a very versatile call, since it doesn’t take up any bidding room. There all are sorts of conventional applications of the double; in this seminar we will look at this most useful tool.” - ACBL

Questions answered:

1. When is a double negative?
2. When is a double penalty?
3. How do I penalize a low level overcall?
4. How do I know which is which?
5. More besides!
